

IMPORTANT UPDATE: Motorcycle Safety Course Availability (FY26)

Bottom Line Up Front: Due to temporary program-wide budget constraints within the Army Traffic Safety Training Program (ATSTP), training seats for the Motorcycle Basic Rider Course (BRC) and Advanced Rider Course (ARC) are extremely limited for the remainder of Fiscal Year 2026. This shortage is expected to last until mid-November 2026, when new fiscal year funding and task orders are finalized.

To ensure you can secure a seat and complete your mandatory training, please keep the following critical guidelines in mind:

Key

Requirements &
Actions

What You Need to Do

Lock In Your Spot
Early

Class rosters must be finalized and locked 7 days in advance. Walk-ins or late registrations cannot be accommodated during this period.

No-Show Prevention

Wasted seats cannot be tolerated under current budget limits. If you register, you must show up. Standby rosters will be actively used to fill any sudden vacancies.

Plan for Delays

Because of a projected funding transition gap, no additional training slots will open between October 1st and mid-November. Secure your dates now.
